

# Emily Whitaker

680 North Park Street, Madison, WI 53706 | (609) 240-1863 | ewhitaker524@gmail.com

## EDUCATION

---

**University of Wisconsin-Madison**, Wisconsin, Madison

August 2018- Present

Master of Science: Freshwater and Marine Sciences

Advisor: Dr. Hilary Dugan

**Dickinson College**, Carlisle, PA

May 2017

Bachelor of Sciences: Physics, Certificate: Social Innovation and Entrepreneurship (SINE)

### Honors:

- Rush Citizen of the Year Spring 2017
  - Recognized for active citizenship, leadership, being a leader and a role model, enacting positive changes, positively contributing to the community, peer accountability, and self-governance.
- 1902 Award Spring 2016
  - Awarded to a Junior student who has contributed the most to the good of the college
- Poster Honors: *Increasing the Potential of a Biogas Digester through the use of a Solar Air Heater*

**Relevant Course Work** *Environmental Physics, Oceanography, Climate Change & Renewable Energies, Environmental Science, Environmental Leadership & Organizing for Sustainable Social Change*

### Relevant Dickinson College Physics Colloquium Presentations

- *Where do Different Sized Particles Accumulate on Gravity-Capillary Waves*
- *Exploring the Effects of Frequency on the Dynamics of Gravity-Capillary Waves*
- *A Holistic Look at a Lake*

## PEER-REVIEWED PAPERS

---

**Whitaker, E. C.**, Reed, D. E. and Desai, A. R. (2016), *Lake ice measurements from soil water content reflectometer sensors*. Limnol. Oceanogr. Methods, 14: 224–230. doi:10.1002/lom3.10083

*In Prep:*

Reed, D. E., Desai, A.R., **Whitaker, E.C.** Nuckles, H., *Winter Lake Ice Variability Measurements and Modeling*. Limnol. Oceanogr. Methods.

## RESEARCH EXPERIENCE

---

Thesis: *Where do contaminants accumulate on gravity-capillary waves?*

Fall 2016-Spring 2017

**Dickinson College**, Carlisle PA, Advisor: Dr. Stephen Strickland

- Examined size discrepancy of where particles fall on induced Faraday waves using Matlab imaging
- Created nanoparticles and small-scale plasma chamber

Thesis: *Exploring the Feasibility of a Colocation Project in Carlisle PA*

Spring 2017

**Dickinson College**, Carlisle PA, Advisor: Dr. Helen Takacs

- Created an interview protocol which was used to interviewed service providers, clients, and local leaders
- Synthesized collected data and historical data to better understand the need of colocation in the region
- Presented findings to the Carlisle community

*Anthropogenic Beach Manipulation: The Impact of Groins on Sand Distribution*

Fall 2016

**Dickinson College**, Carlisle PA, Advisor: Dr. Jorden Hayes

- Developed and executed experiment including field work and data collection
- Performed wet-lab data analysis using a Laser Scattering Particle Size and Distribution Analyzer

*Interfacing a Solar Air Heater with a Methane Producing Biogas Digester*

Spring-Fall 2016

**Dickinson College**, Carlisle PA, Advisors: Dr. Hans Pfister and Mr. Mathew Steiman

- Designed and implemented a solar air heater to sustain a biogas digester during winter months
- Collaborated with Bucknell University and Bob Hamburg to measure biogas quality and system efficiency

## RESEARCH EXPERIENCE (CONT.)

---

NSF REU LTER *Fellow* Summer 2015

**University of Wisconsin-Madison**, Madison, WI, Advisors: Dr. Ankur Desai and Dr. David Reed

- Synthesized data from multiple lakes in multiple seasons and years to create a dynamic model of how heat moves through a lake and how lakes freeze and thaw
- Determined that CS616 soil water content sensors could measure ice thickness

### Relevant Conferences Attended

- Association for the Advancement of Sustainability in Higher Education 2016, talk: *Small Scale Biogas for Energy Sustainability and Education*
- American Geophysical Union's Fall 2015 Meeting, presented poster, *Soil Water Content Sensors as a Method of Measuring Lake Ice Depth*

## SKILLS

---

- **Computer:** Vernier software, Campbell sensors, HOBOWare, LabVIEW, Environmental Chambers, Microsoft Office, ExpressScribe, Python, Jupyter Notebooks, GitHub, Docker, Overleaf, bash
- **Other:** Research and development, field work, dry and wet lab experience, grant writing, writing reports, analyzing scientific articles, sensor development, PID, Arduino, soldering, qualitative research

## DICKINSON LEADERSHIP EXPERIENCE

---

*Panelist Student Hearing Panelist* 2014-2017

*Vice-President of Brotherhood Alpha Phi Omega National Service Fraternity* 2014-2017

*Member Devil's Advocates Student Philanthropy and Alumni Engagement Group* 2015-2017

- Communicated the importance of giving back to the college to students, alumni, and trustees
- Provided a student voice at meetings and dinners with the Board of Trustees and the Alumni Council

*Member Senior Gift Drive Committee* 2016-2017

*First Year/Senior Mentor New Student Programs* 2015-2017

- Organized events, maintained a detailed budget, wrote recommendations, and met regularly with first years
- Assisted with 18 students' transition to college life and residential college living
- Mentored a group of 10 First Year Mentors

## SELECTED COMMITTEE WORK

---

*Board Member Dickinson Sustainable Investment Group* 2016-2017

- Met with the Board of Trustees to discuss the college's investment portfolio, provided input, and shared policies, practices and goals diversify the portfolio and expand environmentally-oriented holdings

*Interviewer, Committee to find New College President* 2016

*Interviewer, Committee to find Director of New Student Programs* 2016

*Interviewer, Committee to find Director of Experiential and Outdoor Education* 2016

## ADDITIONAL EXPERIENCE

---

**Lab Manager and Researcher**, Contextual Dynamics Lab, Dartmouth College July 2017-June 2018

- Directed research in an adaptive memory experiment
- Updated lab code (Python2 to Python3)
- Wrote and revised grants, lab papers, and IRB protocols
- Trained, coordinated, and mentored 14 undergraduate research assistants

**Cabin Counselor** Camp Speers-Eljabar, Dingmans Ferry, PA Summers, 2012-2014
